INTRODUCTION

This document is the Index to the Administrative Record which was developed for Installation Restoration (IR) Program Site 07 (Calf Pasture Point) at the Naval Construction Battalion Center (NCBC Davisville) located in North Kingstown, Rhode Island. The Administrative Record was prepared pursuant to the requirements of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended by the Superfund Amendments and Reauthorization Act (SARA) of 1986.

On 21 November 1989, NCBC Davisville was placed on the EPA's National Priorities List (NPL), which is a compilation of national priority sites among the known sites with releases or threatened releases of hazardous substances, pollutants, or contaminants. A Federal Facilities Agreement (FFA) for NCBC Davisville was signed on 23 March 1992.

The materials contained herein were considered, or relied upon, in the selection of the appropriate response action for Site 07. The documents listed in this index are either site-specific documents/correspondence or are guidance documents used in selection of the response action. All other guidance documents are incorporated by reference and are available for review at the EPA Reference Library at EPA New England, 1 Congress Street, Boston, MA, (617) 565-3300.

The Administrative Record is set up in sections that follow the stages of the Navy's IR Program and this Administrative Record Index. Each section has the reports (latest versions) and correspondence documents pertaining to each phase of the IR Program for Site 07.

In addition to this Administrative Record Index, an Information Repository is maintained at the North Kingstown Free Public Library located in the Town of North Kingstown, Rhode Island. A copy of the Administrative Record file is also maintained at the Navy's Caretaker Site Office at the former NCBC Davisville (1330 Davisville Road, currently the Rhode Island Economics Development Corporation headquarters).
