INTRODUCTION

This document is the Index to the Administrative Record which was developed for Installation Restoration (IR) Program Site 09 (Allen Harbor Landfill) at the Naval Construction Battalion Center (NCBC Davisville) located in North Kingstown, Rhode Island. The Administrative Record was prepared pursuant to the requirements of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended by the Superfund Amendments and Reauthorization Act (SARA) of 1986.

On 21 November 1989, NCBC Davisville was placed on the EPA's National Priorities List (NPL), which is a compilation of national priority sites among the known sites with releases or threatened releases of hazardous substances, pollutants, or contaminants.

Federal Facilities Agreement (FFA) for NCBC Davisville was signed on 23 March 1992. The materials contained herein were considered, or relied upon, in the selection of the appropriate response action for Site 09. The documents listed in this index are either site-specific documents/ correspondence or are guidance documents used in selection of the response action. All other guidance documents are incorporated by reference and are available for review at the EPA Reference Library at EPA New England, 1 Congress Street, Boston, MA, (617) 565-3300. A few documents, marked "Unavailable," were not locatable in Davisville, Navy, EA, or author/recipient libraries.

The Administrative Record is set up in sections that follow the stages of the Navy's IR Program and this Administrative Record Index. Each section has the reports and correspondence documents pertaining to each phase of the IR Program for Site 09. Images of documents in Parts 1000-4000 are located on Site 09 CD No. 1, and images of documents in Parts 5000-13000 are on Site 09 CD No. 2.

In addition to this Administrative Record, an Information Repository is maintained at the North Kingstown Free Public Library located in the Town of North Kingstown, Rhode Island.
